Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The main reason for allowance of claims 1-5 and 7-19 is that the prior art does not show or make obvious a rotation angle detecting device as shown in claims 1,4 and 13. Applicant discloses a plurality of semiconductor magnetoresistive elements with a structure being formed over and integrally with a common cell of a wafer. This limitation in combination with other limitations of the claims renders this case allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
